Experience

Co-Founder

November 2023 – September 2024

Hyperform Vietnam LTD

Hanoi, Vietnam

- Co-founded a software outsourcing studio and led a team of engineers and designers delivering mobile and web products for clients across multiple verticals
- Shipped a golf tee-time booking app, a digital magazine app, and an election-prediction application end-to-end, from initial scope through production deployment
- Owned client relationships, scoped engagements, and managed delivery timelines while setting technical direction across all projects

Head of Technology

July 2021 – August 2023

Infinity Valley JSC

Hanoi, Vietnam

- Owned the technology behind one of Vietnam's first Amazon Locker-style smart locker networks, spanning the customer mobile app, backend services, and on-device firmware
- Led and managed the engineering team across mobile and web developers — running sprint planning, code reviews, hiring, and mentoring
- Architected the core stack and wrote production code alongside the team, building the customer-facing web app with React and Next.js on top of the backend APIs deployed to AWS
- Coordinated with hardware manufacturers and suppliers on the locker hardware, providing technical direction and translating product requirements into engineering specifications
- Partnered with executives on product roadmap, vendor selection, and overall technical strategy

Mobile Application Developer

July 2020 – June 2021

Tinhvan Consulting JSC

Hanoi, Vietnam

- Built cross-platform mobile features for the HRM (Human Resource Management) platform HiStaff using React Native, shipping to iOS and Android from a single codebase
- Integrated mobile clients with REST APIs and backend services, debugging issues across the full request lifecycle
- Developed companion web dashboards used by HR administrators for employee, attendance, and workflow management

Education

University of California, Davis

Davis, CA, USA

B.S. in Computer Science

June 2026
